

SPIDER & FLY

You will need:

- 2 dice (preferably different colours)
- 10 spiders & 10 flies

Player one is **spiders**, player two is **flies**. Take turns to roll the die.

1. Roll the die once for the **along** coordinate, eg 5.
2. Roll the die again for the **up** coordinate, eg 3.
3. Place your spider/fly where the lines meet, eg (5,3)

The first player with three spiders or flies in a row is the winner.
