

## Teaching & Learning Policy

### *'Discipleship as part of a quality education'*

#### **Rationale**

We acknowledge that children learn in different ways, through a variety of experiences, and we recognise the need to develop strategies that allow all our children to learn in ways that best suit them.

The quality of teaching has the greatest impact on our children's learning and the standards that they attain.

We value the strengths of individual children, teachers and support staff.

#### **Aims**

The aim of this policy is to provide a clear statement of the principle and practice of teaching and learning at Bradford Christian School. This statement represents how our children learn and how we intend to encourage and support that learning. It provides a framework which enables teachers and support staff to be confident in developing their own practice within the guidelines of the school's ethos and ensures that we are consistent in the way we work with our pupils.

We aim to help our children to:

- Enjoy their learning through experiencing success and by increasing their self esteem.
- Become independent, confident learners who take increasing responsibility for their own learning.
- Feel secure and comfortable in school
- Acquire the necessary skills for learning, now and in the future, by developing lively, enquiring minds and the ability to question, share ideas and work co-operatively.
- Recognise and develop their own personal skills to the best of their ability.
- Access a rich, balanced and relevant curriculum in a variety of ways. This includes encouraging creativity and self expression.
- Use language and number effectively, as a foundation for learning, and to feel confident in all areas of the curriculum.
- Develop an understanding of other cultures, ways of life and beliefs.

#### **The Learning Environment**

At Bradford Christian School we believe a positive learning environment sets the climate for learning and enables all children to access the curriculum. It should:

- Be welcoming and inviting to children and adults by encouraging interaction and providing opportunities for good communication between home and school and working in partnership with parents.

- Support and challenge learning by ensuring appropriate resources are accessible for the students, encouraging them in different areas of learning, including ICT and reminding them that they are working towards personal goals and targets in their learning.
- Recognise and celebrate achievement and effort in the display and presentation of children's learning across the curriculum raising self esteem and confidence.
- Be stimulating and thought provoking with the use of displays and resources encouraging children to explore, investigate and play.
- To feel safe both emotionally and physically.
- To be warm and comfortable by the provision of appropriate furniture , buildings and heating.
- To encourage co-operative and collaborative learning and good working relationships through the flexible use of space and the ability to adapt to whole class, group and individual learning.
